[Walking to Listen](#) May 06 2021 A memoir of one young man's coming-of-age on a cross-country trek—told through the stories of the people of all ages, races, and inclinations he meets along the highways of America. At twenty-three, Andrew Forsthoefel walked out the back door of his home in Chadds Ford, Pennsylvania, with a backpack, an audio recorder, his copies of Whitman and Rilke, and a sign that read walking to listen. He had just graduated from Middlebury College and was ready to begin his adult life, but he didn't know how. So he decided he'd walk. And listen. It would be a cross-country quest for guidance, and everyone he met would be his guide. Walking toward the Pacific, he faced an Appalachian winter and a Mojave summer. He met beasts inside: fear, loneliness, doubt. But he also encountered incredible kindness from strangers. Thousands shared their stories with him, sometimes confiding their prejudices, too. Often he didn't know how to respond. How to find unity in diversity? How to stay connected, even as fear works to tear us apart? He listened for answers to these questions, and to the existential questions every human must face, and began to find that the answer might be in listening itself. Ultimately, it's the stories of others living all along the roads of America that carry this journey and sing out in a hopeful, heartfelt book about how a life is made, and how our nation defines itself at the most human level.

Listening for America: Inside the Great American Songbook from Gershwin to Sondheim Sep 22 2022 “Not since the late Leonard Bernstein has classical music had a combination salesman-teacher as irresistible as Kapilow.” —Kansas City Star Few people in recent memory have dedicated themselves as devotedly to the story of twentieth-century American music as Rob Kapilow, the composer, conductor, and host of the hit NPR music radio program, *What Makes It Great?* Now, in *Listening for America*, he turns his keen ear to the *Great American Songbook*, bringing many of our favorite classics to life through the songs and stories of eight of the twentieth century's most treasured American composers—Kern, Porter, Gershwin, Arlen, Berlin, Rodgers, Bernstein, and Sondheim. Hardly confining himself to celebrating what makes these catchy melodies so unforgettable, Kapilow delves deeply into how issues of race, immigration, sexuality, and appropriation intertwine in masterpieces like *Show Boat* and *West Side Story*. A book not just about musical theater but about America itself, *Listening for America* is equally for the devotee, the singer, the music student, or for anyone intrigued by how popular music has shaped the larger culture, and promises to be the ideal gift book for years to come.

You’re Not Listening Dec 25 2022 When was the last time you listened to someone, or someone really listened to you? “If you’re like most people, you don’t listen as often or as well as you’d like. There’s no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor.” - Adam Grant, #1 New York Times bestselling author of *Originals* and *Give and Take* **Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club** “An essential book for our times.” -Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* At work, we’re taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We’re not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it’s making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we’re not listening, what it’s doing to

us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that’s full of practical advice, *You’re Not Listening* is to listening what Susan Cain’s *Quiet* was to introversion. It’s time to stop talking and start listening.

How to Be Animal Dec 21 2019 “A remarkable combination of biology, genetics, zoology, evolutionary psychology and philosophy.” —Richard Powers, Pulitzer Prize-winning author of *The Overstory* “A brilliant, thought-provoking book.” —Matt Haig, New York Times bestselling author of *The Midnight Library* A wide-ranging take on why humans have a troubled relationship with being an animal, and why we need a better one Human are the most inquisitive, emotional, imaginative, aggressive, and baffling animals on the planet. But we are also an animal that does not think it is an animal. How well do we really know ourselves? *How to Be Animal* tells a remarkable story of what it means to be human and argues that at the heart of our existence is a profound struggle with being animal. We possess a psychology that seeks separation between humanity and the rest of nature, and we have invented grand ideologies to magnify this. As well as piecing together the mystery of how this mindset evolved, Challenger’s book examines the wide-reaching ways in which it affects our lives, from our politics to the way we distance ourselves from other species. We travel from the origin of homo sapiens through the agrarian and industrial revolutions, the age of the internet, and on to the futures of AI and human-machine interface. Challenger examines how technology influences our sense of our own animal nature and our relationship with other species with whom we share this fragile planet. That we are separated from our own animality is a delusion, according to Challenger. Blending nature writing, history, and moral philosophy, *How to Be Animal* is both a fascinating reappraisal of what it means to be human, and a robust defense of what it means to be an animal.

[Listening to People](#) Oct 31 2020 A down-to-earth, practical guide for interview and participant observation and analysis. In-depth interviews and close observation are essential to the work of social scientists, but inserting one’s researcher-self into the lives of others can be daunting, especially early on. Esteemed sociologist Annette Lareau is here to help. Lareau’s clear, insightful, and personal guide is not your average methods text. It promises to reduce researcher anxiety while illuminating the best methods for first-rate research practice. As the title of this book suggests, Lareau considers listening to be the core element of interviewing and observation. A researcher must listen to people as she collects data, listen to feedback as she describes what she is learning, listen to the findings of others as they delve into the existing literature on topics, and listen to herself in order to sift and prioritize some aspects of the study over others. By listening in these different ways, researchers will discover connections, reconsider assumptions, catch mistakes, develop and assess new ideas, weigh priorities, ponder new directions, and undertake numerous

adjustments—all of which will make their contributions clearer and more valuable. Accessibly written and full of practical, easy-to-follow guidance, this book will help both novice and experienced researchers to do their very best work. Qualitative research is an inherently uncertain project, but with Lareau's help, you can alleviate anxiety and focus on success.

The Death and Life of Aida Hernandez Jun 26 2020 What happens when an undocumented teen mother takes on the U.S. immigration system? When Aida Hernandez was born in 1987 in Agua Prieta, Mexico, the nearby U.S. border was little more than a worn-down fence. Eight years later, Aida's mother took her and her siblings to live in Douglas, Arizona. By then, the border had become one of the most heavily policed sites in America. Undocumented, Aida fought to make her way. She learned English, watched Friends, and, after having a baby at sixteen, dreamed of teaching dance and moving with her son to New York City. But life had other plans. Following a misstep that led to her deportation, Aida found herself in a Mexican city marked by violence, in a country that was not hers. To get back to the United

States and reunite with her son, she embarked on a harrowing journey. The daughter of a rebel hero from the mountains of Chihuahua, Aida has a genius for survival—but returning to the United States was just the beginning of her quest. Taking us into detention centers, immigration courts, and the inner lives of Aida and other daring characters, *The Death and Life of Aida Hernandez* reveals the human consequences of militarizing what was once a more forgiving border. With emotional force and narrative suspense, Aaron Bobrow-Strain brings us into the heart of a violently unequal America. He also shows us that the heroes of our current immigration wars are less likely to be perfect paragons of virtue than complex, flawed human beings who deserve justice and empathy all the same.

[Good to Great](#) May 18 2022 *The Challenge Built to Last*, the defining

management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

Whether you are dealing with a harried colleague, a stressed-out client, or an insecure spouse, things will go from bad to worse if you can't break through emotional barricades and get your message thoroughly communicated and registered. Drawing on his experience as a psychiatrist, business consultant, and coach, author Mark Goulston combines his background with the latest scientific research to help you turn the "impossible" and "unreachable" people in their lives into allies, devoted customers, loyal colleagues, and lifetime friends. In *Just Listen*, Goulston provides simple yet powerful techniques you can use to really get through to people including how to: make a powerful and positive first impression; listen effectively; make even a total stranger (potential client) feel understood; talk an angry or aggressive person away from an instinctual, unproductive reaction and toward a more rational mindset; and achieve buy-in--the linchpin of all persuasion, negotiation, and sales. Whether they're coworkers, friends, strangers, or enemies, the first make-or-break step in persuading anyone to do anything is getting them to hear you out. The invaluable principles in *Just Listen* will get you through that first tough step with anyone. With this groundbreaking book, you will be able to master the fine but critical art of effective communication.

Where I Come From Apr 05 2021 In this irresistible collection of wide-ranging and endearingly personal columns culled from his best-loved pieces in *Southern Living* and *Garden & Gun*, Pulitzer Prize-winning author Rick Bragg muses on everything from his love of Tupperware to the decline of country music; from the legacy of Harper Lee to the metamorphosis of the pickup truck; and from the best way to kill fire ants to why any self-respecting Southern man worth his salt should carry a good knife. An ode to the stories and the history of the South, crackling with tenderness, wit, and deep affection, *Where I Come From* celebrates "a litany of great talkers, blue-green waters, deep casseroles, kitchen-sink permanents, lying fishermen, haunted mansions, and dogs that never die, things that make this place more than a dotted line on a map or a long-ago failed rebellion, even if only in some cold-weather dream." Evoking the beauty and the odd particularity of humble origins, Bragg's searching vision, generous humor, and richly nuanced voice bring a place, a people, and a world vividly to life.

[The Great Controversy Between Christ and Satan: From the Destruction of Jerusalem to the End of the Controversy](#) Sep 29 2020 "The Lord has shown me that Satan was once an honored angel in heaven, next to Jesus Christ. His countenance was mild, expressive of happiness like the other angels. His forehead was high and broad, and showed great intelligence. His form was perfect. He had noble, majestic bearing. And I saw that when God said to his Son, Let us make man in our image, Satan was jealous of Jesus. He wished to be consulted concerning the formation of man. He was filled with envy, jealousy and hatred. He wished to be the highest in heaven, next to God, and receive the highest honors. Until this time all heaven was in order, harmony and perfect subjection to the government of God."- Ellen G White
