Silence within and beyond Pedagogical Settings Jul 15 2022 This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

Divorce Sucks May 01 2021 Hock the platinum. Take down the vacation photos. Cancel the joint checking account. There's no question . . . *Divorce Sucks*. And perhaps no one knows that better than author Mary Jo Eustace, whose ex-husband Dean McDermott married Tori Spelling a mere thirty days after their divorce was finalized. One part tell-all and one part guide to get readers on their feet after a bitter breakup, this hilarious addition to the bestselling *Sucks* series tells everything readers don't want to know about divorce - from what a phone call with a lawyer will cost; to how to handle your newer, younger replacement; to what Hollywood divorcees are actually thinking when they watch their ex walk the red carpet with a millionairess. Sometimes horrifying, sometimes gratifying, and never merciful, this book will give readers an inside look at one of today's most public divorces while reminding them - hey, it could always be worse.

The Hebrew Letters May 13 2022 Sefer Yetzirah (the "Book of Creation"), one of the earliest Kabbalistic works, teaches that the letters of the Hebrew alphabet are the building blocks of creation. Each letter has its own significance, spiritual energy, and reason for existing. In this revised version of Rabbi Ginsburgh's best-selling *The Alef-Beit, Jewish Thought Revealed Through the Hebrew Letters*, he explains how each letter's name, form, and numerical value play a role in the creative process of the cosmos. He draws on the understandings of the well-known mystic, the Baal Shem Tov, in

depicting how each letter has nine dimensions, with impact in three worlds--the physical, spiritual, and Divine. In every letter there is the true completion of the soul, a chance to unite consciousness with the code of creation. Includes glossary, footnotes, and index.

Clinical Pediatrics (Classic Reprint) Jul 03 2021 Excerpt from Clinical Pediatrics The object of this work is to give the student and general practitioner a brief review of the most common conditions and diseases found in infancy and childhood, as an aid in diagnosis. It is both tedious and confusing to go through an exhaustive and voluminous book on, the subject, and a description of diseases from a clinical and practical standpoint only may be found useful. To become a good diagnostician, one must be familiar with the cardinal symptoms of conditions found in every day practice. With this idea in view, I have endeavored to make this work as brief and concise as possible. My information is derived from recognized text books, current literature, personal experience and judgment. The Google+ interface is intuitive and attractive—images appear large and uncropped in the stream, preserving their original integrity; and the infinite scrolling feature creates a fluid, enjoyable photo browsing experience. Users can build circles to connect with just those they want to include in different conversations, and they can use the Hangouts feature to talk with other users in real time from anywhere in the world. With this book, you'll see why Google+ has quickly become the most inspiring and interactive social network for photographers, and you'll learn how to leverage Google+ to build a following and connect with other photographers—and potential customers. Explains how to effectively showcase your work for the vibrant and growing Google+ photography community Shows how to upload, organize, and share your images; and hone your skills through photo-critique circles Features interviews with leading photographers who share their own photos and tips on how to make the most of Google+ to build an online presence

Post-Mortem Journal Communications from Lawrence of Arabia Through the Mediumship of Jane Sherwood Jun 02 2021 There is probably no stranger nor more controversial book than Jane Sherwood's report, through automatic writing, of the identity of a communicator from the other side of the grave who chose to call himself 'Scott'. After many years of enforced silence, as a result of a solemn promise given to Scott, Jane Sherwood reveals his true identity, namely, Colonel T. E. Lawrence (Lawrence of Arabia). Post-Mortem Journal opens at the moment of Lawrence's death when he finds himself lying at the roadside by his shattered motorbike, unaware that he is actually 'dead'. It continues over the years and shows us the development and salvation of a tortured and guilty man who, for the first time, is forced into admitting his weaknesses and vanities during his earthly life and is only now able to come to terms with himself. Such revelations are both harrowing and magnificent. 'As to the validity', says Jane Sherwood, 'of the information contained in "Scott's" journal I can only vouch for my own honesty; what I have received is here set down without addition or modification. The readers must judge of its probability for themselves.'
