For Ohio's bicentennial in 2003, the Religious Experience Advisory Council of the Ohio Bicentennial Commission was established to commemorate and celebrate the state's diversity of religions and faith traditions. The end result of the council's efforts, Religion in Ohio tells the story of Ohio's religious and spiritual heritage going back to the state's ancient and historic native populations, and including the westward migration of settlers to this region, the development of a wide variety of faith traditions in the years preceding the mid-twentieth century, and the arrival of many newer immigrants in the last fifty years, each group bringing with it cherished traditions. Documenting the religious pluralism in Ohio and the impact faith communities have had on the state, this book

includes chapters on the historical experiences and beliefs of over forty Christian groups, as well as Native American, Jewish, Islamic, Hindu, Buddhist, Sikh, Baha'i, Jain, and Zoroastrian faiths. Each chapter was written by a member of that faith or denomination. Operating under the auspices of the Interfaith Association of Central Ohio, the editors of Religion in Ohio have created a unique collection of Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Clark contends, Princeton Theological Seminary, Harvard Divinity School, Yale Divinity School, and Union Theological Seminary functioned as America's closest equivalents to graduate schools in the humanities during the nineteenth century. These four Protestant institutions, founded to train clergy, later became the cradles for the nonsectarian study of religion at secular colleges and universities. Clark, one of the world's most eminent scholars of early Christianity, explores this development in *Founding the Fathers: Early Church History and Protestant Professors in Nineteenth-Century America*. Based on voluminous archival materials, the book charts how American theologians traveled to Europe to study in Germany and confronted intellectual currents that were invigorating but potentially threatening to their faith. The Union and Yale professors in particular struggled to tame German biblical and philosophical criticism to fit American evangelical convictions. German models that encouraged a positive view of early and medieval Christianity collided with Protestant assumptions that the church had declined grievously between the Apostolic and Reformation eras. Trying to reconcile these views, the Americans came to offer some counterbalance to traditional Protestant hostility both to contemporary Roman Catholicism and to those historical periods that had been perceived as Catholic, especially the patristic era. James Leo Garrett Jr. has been called "the last of the gentlemen theologians" and "the dean of Southern Baptist theologians." In *The Collected Writings of James Leo Garrett Jr., 1950-2015*, the reader will find a truly dazzling collection of works that clearly evince the meticulous scholarship, the even-handed treatment, the biblical fidelity, the wide historical breadth, and the honest sincerity that have made the work and person of James Leo Garrett Jr. so esteemed and revered among so many. Volume 3 contains his works on ecclesiology and provides much-needed light in a day of great confusion on many issues related to the nature, purpose, and mission of the church. Spanning sixty-five years and touching on topics from Baptist history, theology, ecclesiology, church history and biography, religious liberty, Roman Catholicism, and the Christian life, *The Collected Writings of James Leo Garrett Jr., 1950-2015* will inform and inspire readers regardless of their religious or denominational affiliations. Tanzanian Adventism exemplifies one of the most fascinating shifts in the history of religions: the growth of Christianity in Africa. Most striking in this account is the analysis of a minority denomination's transformation to a veritable "folk church." Examination into how the new religious movement known as New Thought or "mind cure" influenced fin-de-siècle Anglophone children's fiction. The models of church government discussed are the Plural Elder-led Congregational model, the Single Elder-led Congregational model, the Democratic Congregational model, the Episcopal model, and the Presbyterian model.

The missionary work of the Seventh-day Adventist Church started in Southern Malawi in 1902, and histories of churches are usually told from that starting point. This book uses a different approach, it tells the story of Lunjika Mission (earlier called Mombera Mission) which begins in 1932, showing how the SDA Church met a new culture, that of the strongly patrilineal Ngoni and their neighbours to the North, and how it dealt with other churches that had started missionary work in that broad area up to two generations before. Reports for 1863-90 include accession lists for the year. Beginning with 1893, the appendixes consist of the various bulletins issued by the Library (Additions; Bibliography; History; Legislation; Library school; Public libraries) Whole church, for the sake of the world. A church informs about its faith through all that it is, says and does. This threefold way of telling determines what the recipient hears. Therefore, if a church wants to be true to its mission it must constantly ask itself two questions: What is the church's calling, and what is the message it sends? How do our churches deal with this challenge? The Church is not for its own sake, but for the world, one of the analyzed documents says. It is called to be an instrument for our loving God's plan to heal a broken world. The basic pattern is found in the Holy Scriptures, but in every time and every cultural context the Church must seek relevant ways and forms. And why not do this in conversation and with open ears to the experiences of others, and with the courage to change, if necessary? The first part of the book is the result of such a listening. Perhaps it surprises someone that I turned to three American Catholics to listen to their experiences. Inspired by the radical message of the Second Vatican Council, they challenge their own church to a radical paradigm shift on the way of being a trustworthy church. Using the model they developed as a base, I turned to my own church, the Uniting Church in Sweden, by asking the same question battery, and the same to an ecumenical document, *The Church: Towards a Common Vision*. And the result? Yet another reminder that every church that wants to be part of God's mission for the sake of the world must constantly test itself in the face of the critical questions of how it faithfully can pass on its message of joys and hope to the world.
